Emergency Management Order 2- 3/30/20

In response to the Disaster Emergency Proclamation issued March 18, 2020, related to the COVID-19 Virus pandemic, the following order is necessary to protect life and property. **This order is effective immediately, and remains in effect until 8:00 a.m. April 29, 2020, unless revised, rescinded, or amended.**

The City of Claremore adopts the following requirements established by the Governor's Sixth Amended Executive Order 2020-07 filed on March 29, 2020.

1. Adults over the age of sixty-five (65) and people of any age who have serious underlying medical conditions, collectively referred to as "vulnerable individuals," shall stay in their home or place of residence except for working in a critical infrastructure sector, as more particularly described herein, and the conduct of essential errands. Essential errands shall mean those errands which are critical to everyday life and includes obtaining medication, groceries, gasoline, and visiting medical providers. The vulnerable population is encouraged to use delivery and/or curbside services whenever available.
2. Oklahomans and medical providers in Oklahoma shall postpone all elective surgeries, minor medical procedures, and non-emergency dental procedures until April 7, 2020.
3. Social gatherings of more than ten people are prohibited. Businesses within a critical infrastructure sector, as more particularly described herein, shall take all reasonable steps necessary to comply with this Order and protect their employees, workers, and patrons.
4. Effective at 11:59 p.m. on March 25, 2020, all businesses not identified as being within a critical infrastructure sector as defined by the U.S. Department of Homeland Security and located in a county experiencing community spread of COVID-19, as identified by OSDH on its website, shall close. Additional sectors may be designated as critical by (the Governor's) Executive Order or Memorandum. Nothing in this provision shall prevent restaurants and bars from providing pick-up, curbside, and delivery. This shall be effective until April 16, 2020.
5. Visitors are prohibited from entering and visiting patients and residents at nursing homes, long-term care facilities, and retirement homes.
6. All delivery personnel including package, floral, and food delivery shall, at the request of a hospital, clinic, long-term care facility, or childcare facility submit to a screening prior to delivering goods. Such screening shall include a temperature check and may include a short questionnaire about potential exposure. Additionally, package delivery companies must institute a daily temperature check and use of a short questionnaire about potential exposure, to be administered at the start of each shift for any worker handling packages. Questionnaires shall include questions about recent travel to areas with significant community spread and personal contact with individuals who have tested positive for COVID-19.
7. As supporting front-line healthcare workers is essential to our battle against COVID-19, front-line healthcare workers and their children, who have not tested positive for COVID-19 and are not otherwise exhibiting the symptoms thereof, shall not- simply because they are healthcare workers or children of healthcare workers- be discriminated against in housing or childcare services.
